

School Admissions made easy

LSAcademia

Background

'LSAcademia-Admissions' is a part of an advanced ERP software solution 'LSAcademia' developed for managing academic institutions. It incorporates latest Java Web technology (J2EE;EJB). LIBSYS has been developing software products for academic institutes for over 25 years with clientele ranging from schools, colleges to IITs and IIMs. The LibSys ILMS has been recognized as de-facto standard for library management.

'LSAcademia-Admissions' for school offers a one stop, hassle free solution to manage the admission process. The software is available as a service on Web with efficient back-end process management by LSAcademia team.
